

Product Instructions

Just a few examples of how the Bumper Mate can hold a bumper for you...

Put long arm into the short support to hold the bumper upright on its end. Use spring clamps to hold bumper to vertical support and the table top.

Use arms like this to cradle bumper face down. Slide arms in to squeeze bumper between vertical arms and table top. Use spring clamps to secure.

Use four arms to hold large bumpers like this.

See our website at www.urethanesupply.com for more creative ways to hold bumpers!

REWARD! If you have any ideas to improve this product that we incorporate into production, we will pay you **\$250** cash! Please contact Kurt at kurt@urethanesupply.com with your ideas.
